

# KEVIN MAHENDRA YOHANES RESPATI

Subang, West Java | +62 851-7969-9616 | mahendrakevin869@gmail.com | linkedin.com/in/kvinmhndr9 | github.com/kvinmhndr9

## SUMMARY

An active 4th-semester student in the Information Systems program at Subang State Polytechnic, with a strong enthusiasm for learning and a keen interest in Information and Communication Technology. Experienced in data management as well as the design, development, and testing of information systems that effectively support organizational needs. Possesses strong analytical and technical skills, backed by good communication, adaptability under pressure, and the ability to collaborate within a team as well as work independently to achieve goals.

## CORE COMPETENCIES

- Information Systems Development
- Web-based Application Development (Laravel, PHP, JavaScript, MySQL)
- Data & Stock Management
- IT Support & Network Configuration
- Agile & Scrum Methodology · SDLC
- Team Collaboration & Leadership
- Problem Solving & Analytical Thinking

## INTERNSHIP EXPERIENCE

### PT. Fath Indo Mediatama

Jul 10, 2023 – Jan 18, 2024

*IT Support*

## PROJECT EXPERIENCE

### Raw Material Stock Management Information System (VBA Excel) – UMKM Keysha Kitchen

Jun 2025

*Project Group | Full Stack Developer*

- Developed a VBA Excel-based information system to record and manage raw material stock for a micro-enterprise.
- Automated stock tracking to minimize manual errors and improve inventory efficiency.

### (SweetPine) Web-based Pineapple Product Ordering System – UMKM Keysha Kitchen

Dec 2025

*Project Group | Project Manager*

- Conducted requirements analysis and defined system specifications for a web-based pineapple product ordering platform.
- Designed system architecture, database structure, and application flowcharts to guide the development process.
- Designed system models including data flow diagrams and entity-relationship diagrams.
- Collaborated with the development team to ensure implementation aligned with system design and user requirements.
- Built a web-based ordering platform for processed pineapple products using PHP Native and MySQL.

### (SI-ASIH) Web-based E-TICKET Management Information System – BUMDes Cipta Asih Desa Cibeusi

Apr 2026

*Project Group | Project Manager*

- Analyzed business processes and user needs for a tourism e-ticket management system at BUMDes Cipta Asih, Cibeusi Village.
- Designed system models including entity-relationship diagrams, interface wireframes and prototype.
- Created UML diagrams (Use Case, Activity, Sequence, Class Diagram) to model system behavior and data flow.
- Defined functional and non-functional requirements to ensure the system met operational and scalability standards.
- Developed a web-based tourism e-ticket management system using Laravel, MySQL, and Integrated Payment Gateway for BUMDes Cipta Asih, Cibeusi Village.

## ORGANIZATIONAL EXPERIENCE

### Member of Relations Department

Dec 2024 – Dec 2025

*Information Technology and Computer Students Association – Subang State Polytechnic*

### Member of Sponsorship Division – DIFEST x ROBOFEST International 2025

Jul 18, 2025

*Information Technology and Computer Students Association – Subang State Polytechnic*

### Chief Executive of PKKMB – Information Technology and Computer Dept.

Aug 18, 2025

*Information Technology and Computer Students Association – Subang State Polytechnic*
